

Summary

Software Engineer with experience in Flutter and React.js, and contributor to the Flutter framework. Collaborated with Google Flutter maintainers to triage issues, debug SDK and engine regressions, and build reliable production applications.

Professional Experience

Nevercode HQ / Codemagic

Developer Support Engineer

- 02/2026 – Present | (Remote) Tartu, Estonia
- resolved **150+ developer support issues** across ci/cd pipelines, reducing build failures & unblocking production releases at scale.
 - diagnosed and resolved complex build failures across flutter, ios, & android pipelines, reducing turnaround time for production blockers.
 - performed deep debugging of ci environments, including dependency resolution, **signing issues**, & platform-specific build errors.
 - created **documentation & troubleshooting resources** to self-service resolution.
 - contributed feedback & insights from developer pain points to influence product improvements & roadmap decisions.

OSS Engineer

- 05/2025 – 01/2026 | (Remote) Tartu, Estonia
- Entrusted by **Google’s Flutter team** to perform **frontline issue triage**, serving as the **first line of review for Flutter SDK** bug reports at scale.
 - Triaged** ~1428 Flutter framework and engine issues/regressions, unblocking high-impact production apps at global scale.
 - Executed **systematic bisection** and **root-cause analysis** across engine, framework, and tooling layers, resulting in accepted upstream patches.
 - Improved developer experience by contributing **SDK bug fixes, tooling enhancements, and documentation updates**.
 - Worked within **large-scale open-source workflows**, collaborating with Google’s Flutter team and community maintainers.

Multipl Fintech, Software Engineer

- 01/2023 – 04/2025 | (Remote) Bengaluru, India
- Fintech based B2C & B2B product transforming how Indians invest for lifestyle spends better with SNBL Model - [Google Play](#) [App Store](#)
 - Built and maintained key B2C features (goals, redemptions, spendvesting calculator, onboarding, campaigns), impacting **thousands of active users**.
 - Improved app scalability and maintainability by introducing **MobX**, cutting UI state inconsistencies and speeding up feature development.
 - Played a key role in a **product UI/UX redesign**, driving a measurable increase in **user growth and retention**.
 - Reduced release turnaround time using **Shorebird CodePush & Firebase Remote Config** for over-the-air updates and controlled rollouts.

SculptSoft, Software Engineer

- 10/2021 – 01/2023 | Ahmedabad, India
- Built React.js apps for Remote Property Valuation workflows.
 - Implemented white-labeling for multi-client deployments.
 - Developed canvas-based features using Fabric.js.
 - Integrated Sentry with custom monitoring.
 - Used Axios, React Router, Formik, Redux, and MUI.

Stasis Labs, Software Engineer

- 11/2020 – 08/2021 | (Remote) Bengaluru, India
- Delivered **FDA- and HIPAA-compliant Remote Patient Monitoring solutions**, balancing regulatory requirements with real-world usability.
 - Engineered a **cross-app IPC Flutter plugin**, bridging Dart and Android native layers for secure, real-time data exchange.
 - Established scalable state and data layers using **BLoC, built_value, freezed, and Moor**, reducing defects in complex, data-sensitive flows.

Aubergine Solutions, Software Engineer

- 12/2019 – 06/2020 | Ahmedabad, India
- Worked on a conversational & cross-domainable app with voice-based navigation system.
 - Published [articles](#) on building carbon clone, certificate generator and emoji slider on Flutter for the company blog.

Skills

Flutter	
Dart	
React.js	
Firebase	
SQL	

Projects

- [Art with Flutter](#), [Craft](#)
art crafted with some flutter magic; ranges from movie characters, tech, popculture, symbols.
- [Spotimute](#), [Chrome Extension](#)
auto-mutes Spotify/Gaana audio when an ad comes.
- [Bhai Kya Kar Raha Hai Tu](#), [Chrome Extension](#)
a [website blocker](#) with a touch of humour. ability customize block-list & meme image.
- [DotSlash3.0](#), [Utility](#)
VSCode extension to easily share DartPad snippets.
- [Platypus](#), [App](#)
online/offline code screenshot generator.
- [110th](#), [Devtool](#)
[110th](#) is a collection of dev tools for VS Code. Currently featuring a powerful Lottie JSON viewer.

Achievements

- [Being Part of Flutter Team](#), [Flutter Team collaborator access](#) for the Flutter Organization on [GitHub](#) for OSS [contributions](#) to SDK/ Docs/Ecosystem. 16 of my pull-requests got mentioned in the notable commits as well.
- [Bronze Badge for Dart Tag](#), [StackOverflow](#)
- [Bronze Badge for Flutter Tag](#), [StackOverflow](#)
- [Udacity Android Basics Nanodegree](#), [Udacity](#)
- [Recommend Candidate for Google I/O 2019](#), [Udacity](#)

Community Contributions

- [IWD 2024 GDG/WTM Ahmedabad](#), [Speaker meta talk on artistic slide writing process](#)
- [GDG Ahmedabad Apr 2024 Meet-up](#), [Speaker learning art of contributing to Flutter SDK](#)
- [Flutter Ahmedabad Jan 2024 Meet-up](#), [Speaker getting started with contributing to Flutter SDK](#)
- [Flutter Ahmedabad Apr 2019 Meet-up](#), [Speaker talk on Functional Programming in Dart](#)

Education

- B.Tech in Computer Engineering**, **Indus University**
09/2017 – 06/2020 | Ahmedabad, India
- Diploma in Computer Engineering**, **Nirma University**
08/2013 – 06/2016 | Ahmedabad, India
